

## MV440 WiFi Gateway by Axisstel

The MV440 EVDO Rev. A WiFi Gateway seamlessly combines wireless wide area networking (WWAN), a WiFi wireless local area network (WLAN) router and four port Ethernet switch to provide wireless broadband data access in one easy to use, plug-and-play desktop networking device. Leveraging CDMA2000 1X EVDO Rev. A technology, the MV440 Gateway provides broadband data at speeds up to 3.1 Mbps for high speed access to email, the Internet, data intensive files and multi-media streaming.

The integrated WiFi router allow access to broadband data from any room at home or office and trouble-free set up of a local hotspot. A four port Ethernet switch provides a plug-and-play solution that enables users to network multiple desktop and laptop PCs. A USB port provides an additional connection.

- **WiFi Hotspot**
- **4 Port LAN**
- **1X EVDO Modem**
